Anders Rydaker Named Minnesotan on the Move

St. Paul, Minnesota – Forty Minnesota business leaders were named Minnesotans on the Move by *Finance and Commerce* at an April 29 awards presentation celebrating the magazine’s 120th anniversary. Anders Rydaker, president of District Energy St. Paul and its affiliate Ever-Green Energy, was the proud recipient of one of the awards honoring individuals who are poised to make business history during the coming years.

Special Sections Editor Dan Heilman said the magazine fielded award nominations from throughout Minnesota and solicited input from staff reporters to “create a list of 40 people whose stars are on the rise.”

About Ever-Green Energy

Ever-Green Energy specializes in consulting, operating, managing and developing integrated community energy systems that benefit customers, communities and the environment. The company is the service provider to District Energy St. Paul, the largest biomass-fueled hot water district heating system in North America. For more information, visit www.ever-greenenergy.com or www.districtenergy.com.
